

Home Build Opportunities

Who We Are

Our Mission: *Putting God's love into action by bringing people together building homes and hope.*

Our Vision: *Transforming Dorchester County One Home at a Time.*

For 28 years Dorchester Habitat for Humanity has transformed communities and families by building affordable homes

in partnership with hardworking future homeowners who would otherwise not realize the dream of homeownership. An important part of our Mission is to improve our local Summerville and St. George communities. Therefore, we look for opportunities to not only partner with future Habitat homeowners, but with the community at large to create a more thriving Dorchester County where everyone has an affordable, safe and decent place to call home. As a locally supported nonprofit, the work that Dorchester Habitat for Humanity does, together with you, is only made possible with the support from our local neighbors.

Why Sponsor a Build?

It takes over 2,000 hours of volunteer labor to build each Habitat home. Sponsoring a Home Build is an opportunity for leaders like you to join together with socially engaged community members to help those who could use a “hand up” not a “hand out.” Your financial support allows us to purchase the necessary building materials, tools and supplies for each build.

In exchange, your organization gains the opportunity for a one-of-a-kind team building experience and an unique promotional access—a great way to show that community values fuel your organization’s mission.
